

# Drypoint Printmaking

**TONY WINDBERG**  
Visual Artist

Artist Tony Windberg has a thing for trees! From his first solo exhibition in 1989 to his South-West 'tree change' in 2005, trees have featured large in his life and landscape art.

Drypoint prints are an easier alternative to etching, not requiring acid. Scratch image directly into the poly plate, ink up, wipe back, then run through the press. Use line and tone to bring our magnificent trees of the South-West to life!
